

Dear Friends and Neighbors,

It's that time of the year again to subscribe to the Chicora Fire Department's Ambulance Service.

You may ask yourself ... **"What are the benefits of having this subscription?"**

Your paid subscription to Chicora Fire Department's Ambulance Service will help ensure the continued operations of our local emergency medical services provider. Chicora Fire Department's Ambulance Service is a non-profit organization that services Chicora Borough, Donegal, Fairview, Clearfield, Concord, and Oakland Townships

Money raised through these subscriptions is also used to purchase new equipment, train staff, and meet the daily operational cost of running the department. The department is operated by local volunteers and is crewed 24 hours a day by a combination of staff and volunteers that are fully trained Emergency Medical Technicians (EMTs).

With a subscription, any medically-necessary service covered by insurance will be provided at a reduced cost to you, other than the co-pay or deductible. Since most insurance providers only pay a portion of the charges for ambulance services, your subscription guarantees that you will not be responsible for the substantial balance. If you have no ambulance insurance coverage, a discount is available.

Family Plan- \$35.00

This subscription will cover anyone who is covered under the head of household's insurance plan. (Head of household and all dependents)

Individual Plan- \$25.00

This subscription will cover ONLY the individual who is listed on the subscription

Residents who take advantage of this subscription plan will have their bills submitted directly to the appropriate insurance company. If your insurance carrier only pays for a portion of the charges, the remaining balance will be adjusted to Zero. Your co-pay/deductible will be eliminated by your membership.

Medicare signature rules apply.

Thank you for your support,

Chicora Fire Department Ambulance Service
